

Queen Size – Rows

Start assembling rows

Row 1

make 2 identical

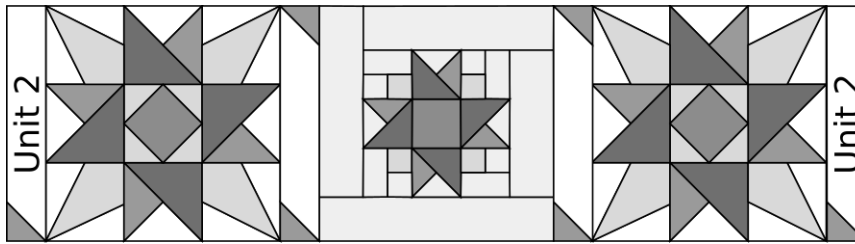

Row 2

make 2 identical

Row 3

make 2 identical

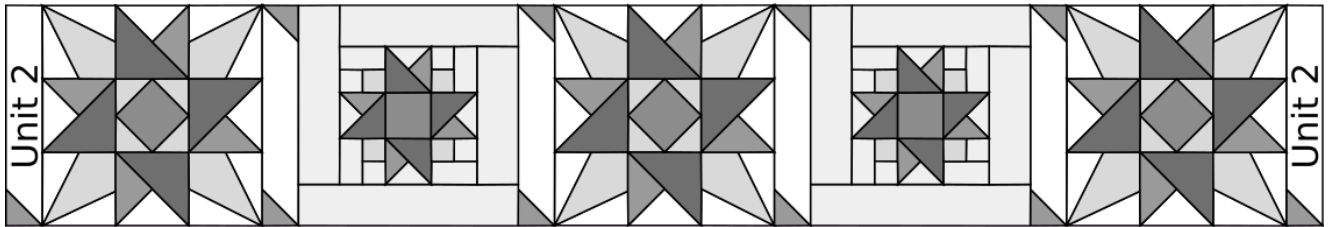

Row 4

make 2 identical

Row 5

make 2 identical

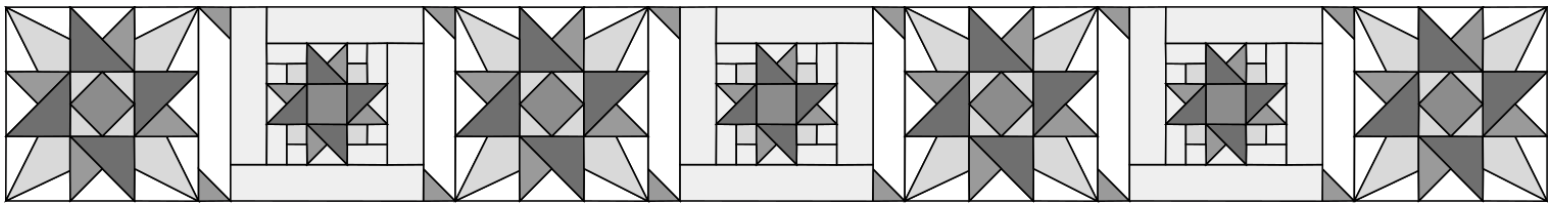

Row 6

make 2 identical

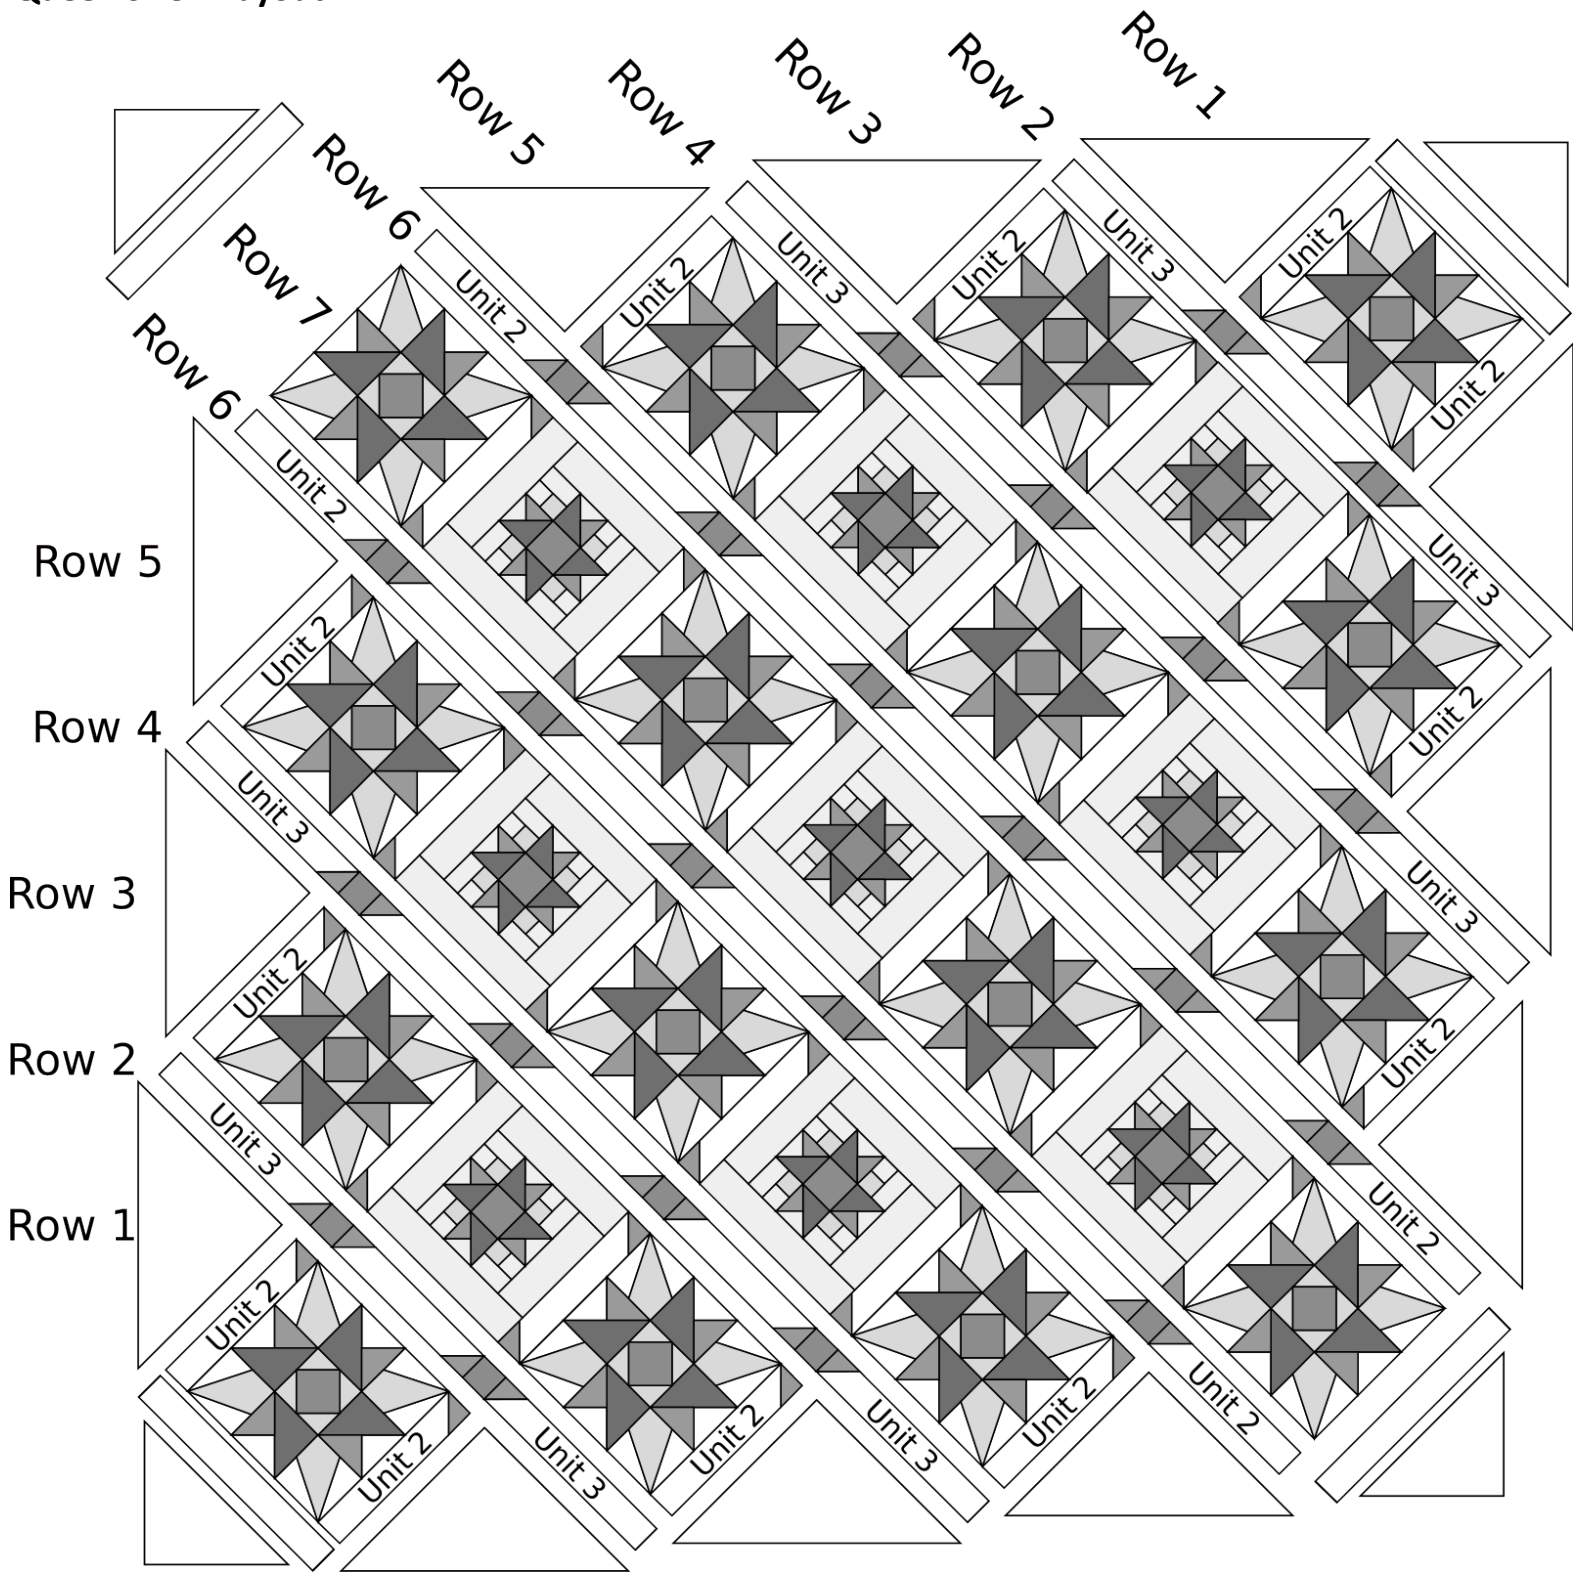

Row 7

make 1

Using layout on following page, sew row 2s to row 3s, then add set-in triangles to ends of row pairs. Sew row 4 to row 5, then add set-in triangles to ends of these row pairs. Then, sew row 6s to either side of your row 7, adding your 2 1/2" x 16 1/2" sashing pieces to either end. Then sew your row 1s to row 2s, and row 3s to row 4s, & row 5s to row 6s. You can then sew the corner triangles on all four sides to complete the quilt centre.

Queen Size – Layout

Hint The edges of the set in triangles will not line up exactly, only make sure the seams line up & your pieces lay flat. Your edges will be a little jagged, we will be trimming the quilt centre next week.
